RAINFAST AFTER 30 MINUTES

- ✓ Kills weeds & grasses, roots & all
- ✓ No soil residue
- ✓ Enhanced penetration of shiny & waxy weeds

Concentrate
Shake well before use

200ml

KILLS GRASSES

BROADLEAF

WARNING: May cause mild skin and eye irritation. Toxic to aquatic life with long lasting effects.

HAZARD CLASSIFICATIONS: 6.03, 6.4A, 9.19

ACTIVE INGREDIENT: Contains 360g/litre glyphosate as the isopropylamine salt in the form of a soluble concentrate, with 10% w/v Organosilicone Penetrant.

PRECAUTIONS: Keep out of reach of children. Read label completely before use. Store in original container away from foodstuffs. Avoid contact with skin, eyes and inhalation of spray mist. When mixing and spraying, wear waterproof gloves, eye protection, long trousers and closed in boots. Wash hands and exposed skin thoroughly after use and before eating. Do not contaminate aquatic environments with concentrate, spray or empty container. In the event of spillage, prevent the liquid from entering waterways. Absorb spill with soil. **Keep children and pets off treated areas until spray has dried. Not for use on or near food or animal feed crops.**

FIRST AID: If swallowed DO NOT induce vomiting. Give plenty of water to dilute. For advice, contact The National Poisons Centre 0800 POISON (0800 764 766) or a doctor immediately. If skin or hair contact occurs, remove contaminated clothing and flush skin and hair with running water. If splashed in eyes, wash out immediately with water.

STORAGE: Store in original container, tightly closed, securely away from children and foodstuffs.

DISPOSAL: Dispose the empty container with domestic rubbish after triple rinsing and adding the wash to the spray mix.

GENERAL INFORMATION: McGregor's Weed Out™ Advanced is rainfast after 30 minutes and offers enhanced penetration of shiny and waxy weeds like Wandering Jew and Gorse. When using as directed Weed Out™ Advanced controls annual and perennial weeds such as Couch, Paspalum, Kikuyu Grass and Thistles. Weed Out™ Advanced is absorbed through the leaves and moves within the plant and into the roots, controlling the plant above and below the ground. Weed Out™ Advanced has no soil activity only treated weeds will be affected. For applications prior to planting gardens or lawns, allow 7 days to pass from treatment before sowing. Apply all year round to actively growing annual weeds. For perennial weeds delay application until there is 15cm or more of leaf growth. Do not cultivate weeds for 7 days after treatment, to allow time for Weed Out™ to circulate throughout the weeds system. Rainfall occurring up to 30 minutes after application may reduce the effectiveness, necessitating a repeat treatment. Visible brown off may take 7-14 days.

DIRECTIONS: Must shake bottle well before use for approximately 20 seconds as contents may separate out. Mix 10ml per 1 litre of clean water. Spray emerged actively growing weeds ensuring all leaves are wet. Avoid contact with desirable plants and trees. If accidentally sprayed, hose off immediately to reduce injury. **Spot treat weeds in lawns carefully as Weed Out™ Advanced will kill lawn grasses.**

WIPER APPLICATION: Premix 100ml per 200ml of clean water, then fill the applicator. Ensure wiping area of applicator is wet before starting and during. Wipe all the leaf area.

HSNO APPROVAL CODE: HSR101010
